Author Index, Vols. 66–68

Abeysinghe, P.D., L. Triest, B.D. Greef, N. Koedam and S. Hettiarachi
Genetic and geographic variation of the mangrove tree *Bruguiera* in Sri Lanka . . (67) (2000) 131
Adam, K.D., *see* Hofstra, D.E. . . . . (66) (2000) 153
Agnihotri, S., *see* Kulshreshtha, K.. . . . . (66) (2000) 241
Al-Hamdani, S.H., *see* Nichols, P.B.. . . . . (68) (2000) 313
Alongi, D.M., F. Tirendi and B.F. Clough
Below-ground decomposition of organic matter in forests of the mangroves *Rhizophora stylosa* and *Avicennia marina* along the arid coast of Western Australia . . . . . (68) (2000) 97
Amoros, C., *see* Greulich, S.. . . . . (66) (2000) 209
Asaeda, T., and S. Karunaratne
Dynamic modeling of the growth of *Phragmites australis*: model description. . . . (67) (2000) 301
Corrigendum to "Dynamic modeling of the growth of *Phragmites australis*: model description". [Aquat. Bot. 67 (2000) 301–318] . . . . . (68) (2000) 187
Asaeda, T., V.K. Trung and J. Manatunge
Modeling the effects of macrophyte growth and decomposition on the nutrient budget in Shallow Lakes. . . . . (68) (2000) 217
Azza, N.G.T., F. Kansiime, M. Nalubega and P. Denny
Differential permeability of papyrus and *Miscanthidium* root mats in Nakivubo swamp, Uganda. . . . . (67) (2000) 169
Baba, S., *see* Takemura, T. . . . . (68) (2000) 15
Babbar, S.B., *see* Ram, M. . . . . (68) (2000) 345
Ballment, E., *see* Benzie, J.A.H. . . . . (66) (2000) 131
Barthélémy, D., *see* Molenaar, H.. . . . . (66) (2000) 85
Baskin, C.C., J.M. Baskin and E.W. Chester
Effect of flooding on the annual dormancy cycle and on germination of seeds of the summer annual *Schoenoplectus purshianus* (Cyperaceae). . . . . (67) (2000) 109
Baskin, J.M., *see* Baskin, C.C.. . . . . (67) (2000) 109
Beer, S., and M. Björk
Measuring rates of photosynthesis of two tropical seagrasses by pulse amplitude modulated (PAM) fluorometry. . . . . (66) (2000) 69
Benzie, J.A.H., E. Ballment, J.R.M. Chisholm and J.M. Jaubert
Genetic variation in the green alga *Caulerpa taxifolia*. . . . . (66) (2000) 131
Berntsen, J., *see* Hansen, J.W. . . . . (66) (2000) 281
Björk, M., *see* Beer, S.. . . . . (66) (2000) 69
Blaylock, A.J., and R.S. Seymour
Diaphragmatic nets prevent water invasion of gas canals in *Nelumbo nucifera* . . . (67) (2000) 53
Blaylock, A.J., *see* Seymour, R.S. . . . . (67) (2000) 155
Bonilla-Barbosa, J., A. Novelo, Y.H. Orozco and J. Márquez-Guzmán
Comparative seed morphology of Mexican *Nymphaea* species . . . . . (68) (2000) 189
Bornette, G., *see* Greulich, S. . . . . (66) (2000) 209

PII: S0304-3770(00)00134-0

Bouchard, V., and J.-C. Lefeuvre
Primary production and macro-detritus dynamics in a European salt marsh: carbon and nitrogen budgets . . . . . (67) (2000) 23
Brix, H., *see* Lorenzen, B. . . . . (66) (2000) 169
Burchett, M.D., *see* MacFarlane, G.R. . . . . (68) (2000) 45
Buu, D.C., *see* Clough, B. . . . . (66) (2000) 311
Calado, G., and P. Duarte
Modelling growth of *Ruppia cirrhosa* . . . . . (68) (2000) 29
Campey, M.L., M. Waycott and G.A. Kendrick
Re-evaluating species boundaries among members of the *Posidonia ostenfeldii* species complex (Posidoniaceae) – morphological and genetic variation . . . . . (66) (2000) 41
Capers, R.S.,
A comparison of two sampling techniques in the study of submersed macrophyte richness and abundance . . . . . (68) (2000) 87
Carlquist, S., and E.L. Schneider
SEM studies of vessels in ferns. 14. Ceratopteris . . . . . (66) (2000) 1
Casal, J.A., J.E. Vermaat and F. Wiegman
A test of two methods for plant protein determination using duckweed . . . . . (67) (2000) 61
Champion, P.D., *see* de Winton, M.D. . . . . (66) (2000) 181
Chester, E.W., *see* Baskin, C.C. . . . . (67) (2000) 109
Chiang, C., C.B. Craft, D.W. Rogers and C.J. Richardson
Effects of 4 years of nitrogen and phosphorus additions on Everglades plant communities . . . . . (68) (2000) 61
Chisholm, J.R.M., *see* Benzie, J.A.H. . . . . (66) (2000) 131
Clayton, J., *see* Hofstra, D.E. . . . . (66) (2000) 153
Clayton, J.S., *see* de Winton, M.D. . . . . (66) (2000) 181
Clevering, O.A., and J. Lissner
Erratum to "Taxonomy, chromosome numbers, clonal diversity and population dynamics of *Phragmites australis*". [Aquat. Bot. 64 (1999) 185–208 . . . . . (66) (2000) 249
Clough, B., D.T. Tan, D.X. Phuong and D.C. Buu
Canopy leaf area index and litter fall in stands of the mangrove *Rhizophora apiculata* of different age in the Mekong Delta, Vietnam . . . . . (66) (2000) 311
Clough, B.F., *see* Alongi, D.M. . . . . (68) (2000) 97
Coelho, F.F., F.S. Lopes and C.F. Sperber
Density-dependent morphological plasticity in *Salvinia auriculata* aublet . . . . . (66) (2000) 273
Connolly, R.M., *see* Seddon, S. . . . . (66) (2000) 297
Couch, J.D., *see* Nichols, P.B. . . . . (68) (2000) 313
Coutinho, R., *see* de Guimaraens, M.A. . . . . (66) (2000) 101
Craft, C.B., *see* Chiang, C. . . . . (68) (2000) 61
de Boer, W.F.,
Biomass dynamics of seagrasses and the role of mangrove and seagrass vegetation as different nutrient sources for an intertidal ecosystem. . . . . (66) (2000) 225
de Guimaraens, M.A., and R. Coutinho
Temporal and spatial variation of *Ulva* spp. and water properties in the Cabo Frio upwelling region of Brazil . . . . . (66) (2000) 101
de Reffye, P., *see* Molenaar, H. . . . . (66) (2000) 85
de Winton, M.D., J.S. Clayton and P.D. Champion
Seedling emergence from seed banks of 15 New Zealand lakes with contrasting vegetation histories . . . . . (66) (2000) 181
Denny, P., *see* Azza, N.G.T. . . . . (67) (2000) 169
Dick, T.M., and O.O. Osunkoya
Influence of tidal restriction floodgates on decomposition of mangrove litter . . . . (68) (2000) 273
Duarte, P., *see* Calado, G. . . . . (68) (2000) 29

Dubinsky, Z., *see* Takemura, T. . . . . (68) (2000) 15
Dunton, K.H., *see* Major, K.M. . . . . (68) (2000) 249
Eaton, J.W., *see* Jones, J.I. . . . . (67) (2000) 191
Eaton, J.W., *see* Jones, J.I. . . . . (66) (2000) 115
Edyvane, K.S., *see* Seddon, S. . . . . (66) (2000) 297
Erskine, J.M., and M.S. Koch
Sulfide effects on *Thalassia testudinum* carbon balance and adenylate energy charge (67) (2000) 275
Félix-Pico, E.F., *see* Santamaría-Gallegos, N.A. . . . . (66) (2000) 329
Fernández, O.A., *see* Sidorkewicj, N.S. . . . . (68) (2000) 79
Fong, C.W., S.Y. Lee and R.S.S. Wu
The effects of epiphytic algae and their grazers on the intertidal seagrass *Zostera japonica* . . . . . (67) (2000) 251
Galindo, C.A., *see* van Tussenbroek, B.I. . . . . (68) (2000) 281
Ganf, G.G., *see* White, S.D. . . . . (67) (2000) 1
Ganf, G.G., *see* White, S.D. . . . . (67) (2000) 263
Ganf, G.G., *see* White, S.D. . . . . (68) (2000) 165
Garcia-Jimenez, P., *see* Marián, F.D. . . . . (68) (2000) 179
Garrett, P.B., *see* Smith, S.M. . . . . (67) (2000) 69
Gessner, M.O.,
Breakdown and nutrient dynamics of submerged *Phragmites* shoots in the littoral zone of a temperate hardwater lake . . . . . (66) (2000) 9
Greef, B.D., *see* Abeysinghe, P.D. . . . . (67) (2000) 131
Green, J.D., *see* Hofstra, D.E. . . . . (66) (2000) 153
Greulich, S., G. Bornette, C. Amoros and J.G.M. Roelofs
Investigation on the fundamental niche of a rare species: an experiment on establishment of *Luronium natans* . . . . . (66) (2000) 209
Guidetti, P.,
Leaf primary production in *Posidonia oceanica*: two reconstructive aging techniques give similar results. . . . . (68) (2000) 337
Gwada, P., T. Makoto and Y. Uezu
Leaf phenological traits in the mangrove *Kandelia candel* (L.) Druce . . . . . (68) (2000) 1
Hanagata, N., *see* Takemura, T. . . . . (68) (2000) 15
Hanisak, M.D., *see* Kraemer, G.P. . . . . (67) (2000) 287
Hansen, J.W., A.-G.U. Pedersen, J. Berntsen, I.S. Rønbøg, L.S. Hansen and B.Aa. Lomstein
Photosynthesis, respiration, and nitrogen uptake by different compartments of a *Zostera marina* community . . . . . (66) (2000) 281
Hansen, L.S., *see* Hansen, J.W. . . . . (66) (2000) 281
Hardwick, K., *see* Jones, J.I. . . . . (67) (2000) 191
Hardwick, K., *see* Jones, J.I. . . . . (66) (2000) 115
Hart, E.A., and J.R. Lovvorn
Vegetation dynamics and primary production in saline, lacustrine wetlands of a Rocky Mountain basin . . . . . (66) (2000) 21
Hettiarachi, S., *see* Abeysinghe, P.D. . . . . (67) (2000) 131
Hillebrand, H., and U. Sommer
Diversity of benthic microalgae in response to colonization time and eutrophication (67) (2000) 221
Hofstra, D.E., J. Clayton, J.D. Green and K.D. Adam
RAPD profiling and isozyme analysis of New Zealand *Hydrilla verticillata* . . . . . (66) (2000) 153
Howard, R.J., and I.A. Mendelssohn
Structure and composition of oligohaline marsh plant communities exposed to salinity pulses . . . . . (68) (2000) 143
Iida, S., and Y. Kadono
Genetic diversity of *Potamogeton anguillanus* in Lake Biwa, Japan . . . . . (67) (2000) 43
Jaubert, J.M., *see* Benzie, J.A.H. . . . . (66) (2000) 131

Jokl, S., *see* Langanger, M. . . . . (67) (2000) 13
Jones, J.I., J.W. Eaton and K. Hardwick
The effect of changing environmental variables in the surrounding water on the physiology of *Elodea nuttallii* . . . . . (66) (2000) 115
Jones, J.I., J.W. Eaton and K. Hardwick
The influence of periphyton on boundary layer conditions: a pH microelectrode investigation . . . . . (67) (2000) 191
Kadono, Y., *see* Iida, S. . . . . (67) (2000) 43
Kalff, J., *see* Rooney, N. . . . . (68) (2000) 321
Kansiime, F., *see* Azza, N.G.T. . . . . (67) (2000) 169
Karube, I., *see* Takemura, T. . . . . (68) (2000) 15

ELSEVIER

Aquatic Botany 68 (2000) 361–374

Aquatic botany

www.elsevier.com/locate/aquabot

Subject Index, Vols. 66–68

Aboveground biomass

Primary production and macro-detritus dynamics in a European salt marsh: carbon and nitrogen budgets 67 (2000) 23

Aerenchyma

Existence of micropores on the tiller surface of *Schoenoplectus subalatus*: the probable port for methane emission 66 (2000) 241

Algal distribution

Temporal and spatial variation of *Ulva* spp. and water properties in the Cabo Frio upwelling region of Brazil 66 (2000) 101

Algal genetics

Genetic variation in the green alga *Caulerpa taxifolia* 66 (2000) 131

Alkalinity

Plant communities in lowland Danish streams: species composition and environmental factors 66 (2000) 255

Alkalinity and trophic state regulate aquatic plant distribution in Danish lakes 67 (2000) 85

Allozyme analysis

Genetic variation in the green alga *Caulerpa taxifolia* 66 (2000) 131

American pondweed

Emergence of vegetative propagules of *Potamogeton nodosus*, *Potamogeton pectinatus*, *Vallisneria americana*, and *Hydrilla verticillata* based on accumulated degree-days 67 (2000) 237

Amphibolis

Long-term seagrass meadow monitoring near Perth, Western Australia 67 (2000) 319

Large-scale seagrass dieback in northern Spencer Gulf, South Australia 66 (2000) 297

Angiosperms

UV-reflectance in flowers of *Nymphaea alba* L. and *Nuphar lutea* (L.) Sm. (Nymphaeaceae) 67 (2000) 13

Annual eelgrass

Phenology and growth cycle of annual subtidal eelgrass in a subtropical locality 66 (2000) 329

Anoxia

Sulfide effects on *Thalassia testudinum* carbon balance and adenylate energy charge 67 (2000) 275

Anthesis, Flower

Stigma peroxidase activity in association with thermogenesis in *Nelumbo nucifera* 67 (2000) 155

Apical meristem

Dormancy and foliar density regulation in *Thalassia testudinum* 68 (2000) 281

Aquatic ferns

SEM studies of vessels in ferns. 14. Ceratopteris 66 (2000) 1

Aquatic macrophytes

Investigation on the fundamental niche of a rare species: an experiment on establishment of *Luronium natans* 66 (2000) 209

Alkalinity and trophic state regulate aquatic plant distribution in Danish lakes 67 (2000) 85

Aquatic plants

Influence of stomatal conductance on the efficiency of internal pressurisation in *Typha domingensis* 67 (2000) 1

Reproductive biology of *Polypleurum stylosum* (Podostemaceae) 67 (2000) 143

A comparison of two sampling techniques in the study of submersed macrophyte richness and abundance 68 (2000) 87

Australia

Influence of tidal restriction floodgates on decomposition of mangrove litter 68 (2000) 273

Avicennia

Below-ground decomposition of organic matter in forests of the mangroves *Rhizophora stylosa* and *Avicennia marina* along the arid coast of Western Australia 68 (2000) 97

Avicennia marina

Cellular distribution of copper, lead and zinc in the grey mangrove, *Avicennia marina* (Forsk.) Vierh 68 (2000) 45

PII: S0304-3770(00)00135-2

Below-ground biomass and productivity

Autumn biomass, below-ground productivity, rhizome growth at bed edge and nitrogen content in seagrasses from Western Australia 67 (2000) 207

Benthic microalgae

Diversity of benthic microalgae in response to colonization time and eutrophication 67 (2000) 221

Bicinchoninic Acid

A test of two methods for plant protein determination using duckweed 67 (2000) 61

Bioaccumulation

Cellular distribution of copper, lead and zinc in the grey mangrove, *Avicennia marina* (Forsk.) Vierh 68 (2000) 45

Biogeochemical cycles

Below-ground decomposition of organic matter in forests of the mangroves *Rhizophora stylosa* and *Avicennia marina* along the arid coast of Western Australia 68 (2000) 97

Biomass

Dynamic modeling of the growth of *Phragmites australis*: model description 67 (2000) 301

Inter-annual variation in submerged macrophyte community biomass and distribution: the influence of temperature and lake morphometry 68 (2000) 321

Biomass accumulation

Effects of habitat nutrients and seed sources on growth and expansion of *Typha domingensis* 68 (2000) 297

Biomass estimates

Evaluation of digital photography for estimating live and dead aboveground biomass in monospecific macrophyte stands 67 (2000) 69

Boundary layer

The effect of changing environmental variables in the surrounding water on the physiology of *Elodea nuttallii* 66 (2000) 115

The influence of periphyton on boundary layer conditions: a pH microelectrode investigation 67 (2000) 191

Brazil

Temporal and spatial variation of *Ulva* spp. and water properties in the Cabo Frio upwelling region of Brazil 66 (2000) 101

Bruguiera

Genetic and geographic variation of the mangrove tree *Bruguiera* in Sri Lanka 67 (2000) 131

Bruguiera gymnorrhiza

Physiological and biochemical responses to salt stress in the mangrove, *Bruguiera gymnorrhiza* 68 (2000) 15

Buried seeds

Effect of flooding on the annual dormancy cycle and on germination of seeds of the summer annual *Schoenoplectus purshianus* (Cyperaceae) 67 (2000) 109

Cabo Frio upwelling

Temporal and spatial variation of *Ulva* spp. and water properties in the Cabo Frio upwelling region of Brazil 66 (2000) 101

Caging experiment

The effects of epiphytic algae and their grazers on the intertidal seagrass *Zostera japonica* 67 (2000) 251

Callitriche

Phylogenetic studies in *Callitriche*: implications for interpretation of ecological, karyological and pollination system evolution 68 (2000) 123

Canonical correlation analyses

Leaf phenological traits in the mangrove *Kandelia candel* (L.) Druce 68 (2000) 1

Carbohydrate

Selected physiological responses of *Salvinia minima* to different chromium concentrations 68 (2000) 313

Carbon

Physiological and growth responses of *Thalassia testudinum* to environmentally-relevant periods of low irradiance 67 (2000) 287

Carbon budget

Dynamic modeling of the growth of *Phragmites australis*: model description 67 (2000) 301

Carbon dioxide

The effect of changing environmental variables in the surrounding water on the physiology of *Elodea nuttallii* 66 (2000) 115

The influence of periphyton on boundary layer conditions: a pH microelectrode investigation 67 (2000) 191

Carbon flux

Below-ground decomposition of organic matter in forests of the mangroves *Rhizophora stylosa* and *Avicennia marina* along the arid coast of Western Australia 68 (2000) 97

Carotenoid

Selected physiological responses of *Salvinia minima* to different chromium concentrations 68 (2000) 313

Pigment composition of freshwater charophyceae 67 (2000) 117

Catalase

Physiological and biochemical responses to salt stress in the mangrove, *Bruguiera gymnorrhiza* 68 (2000) 15

Cattail

Seed germination of two Everglades species, *Cladium jamaicense* and *Typha domingensis* 66 (2000) 169

Effects of 4 years of nitrogen and phosphorus additions on Everglades plant communities 68 (2000) 61

Effects of habitat nutrients and seed sources on growth and expansion of *Typha domingensis* 68 (2000) 297

Caulerpa

Genetic variation in the green alga *Caulerpa taxifolia* 66 (2000) 131

Ceratopteridaceae

SEM studies of vessels in ferns. 14. Ceratopteris 66 (2000) 1

Charcoal

Plant regeneration from seedling explants of *Juncus effusus* 68 (2000) 239

Charophyceae

Pigment composition of freshwater charophyceae 67 (2000) 117

Charophyceae

Light acclimation of the charophyte *Lamprothamnium papulosum* 68 (2000) 205

Chlorophyll

Pigment composition of freshwater charophyceae 67 (2000) 117

Selected physiological responses of *Salvinia minima* to different chromium concentrations 68 (2000) 313

Chlorophyll *a* fluorescence

Herbicide toxicity of *Halophila ovalis* assessed by chlorophyll *a* fluorescence 66 (2000) 141

Chromium

Selected physiological responses of *Salvinia minima* to different chromium concentrations 68 (2000) 313

Cladium

Evaluation of digital photography for estimating live and dead aboveground biomass in monospecific macrophyte stands 67 (2000) 69

Climate

Inter-annual variation in submerged macrophyte community biomass and distribution: the influence of temperature and lake morphometry 68 (2000) 321

Clithon

The effects of epiphytic algae and their grazers on the intertidal seagrass *Zostera japonica* 67 (2000) 251

Clonal integration

Growth, photosynthesis and nutrient content of seedlings and mature plants of *Cymodocea nodosa* — the importance of clonal integration 68 (2000) 265

Clonal plants

Dormancy and foliar density regulation in *Thalassia testudinum* 68 (2000) 281

Coastal lagoon

Modelling growth of *Ruppia cirrhosa* 68 (2000) 29

Coastal marsh

Primary production and macro-detritus dynamics in a European salt marsh: carbon and nitrogen budgets 67 (2000) 23

Coelarthrum opuntia

Wound response and regeneration in *Coelarthrum opuntia* 68 (2000) 345

Coloniser

Long-term seagrass meadow monitoring near Perth, Western Australia 67 (2000) 319

Colonization

Diversity of benthic microalgae in response to colonization time and eutrophication 67 (2000) 221

Community structure

A comparison of two sampling techniques in the study of submersed macrophyte richness and abundance 68 (2000) 87

Convective flow

Flow characteristics and internal pressure profiles in leaves of the *Typha domingensis* 67 (2000) 263

Copper

Cellular distribution of copper, lead and zinc in the grey mangrove, *Avicennia marina* (Forsk.) Vierh 68 (2000) 45

Cut-off river channels

Investigation on the fundamental niche of a rare species: an experiment on establishment of *Luronium natans* 66 (2000) 209

Cymodocea nodosa

Polyamine levels in the seagrass *Cymodocea nodosa* 68 (2000) 179

Growth, photosynthesis and nutrient content of seedlings and mature plants of *Cymodocea nodosa* — the importance of clonal integration 68 (2000) 265

Cyperus papyrus

Differential permeability of papyrus and *Miscanthidium* root mats in Nakivubo swamp, Uganda 67 (2000) 169

Decomposition

Biomass dynamics of seagrasses and the role of mangrove and seagrass vegetation as different nutrient sources for an intertidal ecosystem 66 (2000) 225

Primary production and macro-detritus dynamics in a European salt marsh: carbon and nitrogen budgets 67 (2000) 23

Below-ground decomposition of organic matter in forests of the mangroves *Rhizophora stylosa* and *Avicennia marina* along the arid coast of Western Australia 68 (2000) 97

Modeling the effects of macrophyte growth and decomposition on the nutrient budget in Shallow Lakes 68 (2000) 217

Denmark

Plant communities in lowland Danish streams: species composition and environmental factors 66 (2000) 255

Density regulation

Dormancy and foliar density regulation in *Thalassia testudinum* 68 (2000) 281

Density-dependence

Density-dependent morphological plasticity in *Salvinia auriculata* aublet 66 (2000) 273

Depth

Diaphragmatic nets prevent water invasion of gas canals in *Nelumbo nucifera* 67 (2000) 53

Diaphragm

Diaphragmatic nets prevent water invasion of gas canals in *Nelumbo nucifera* 67 (2000) 53

Die-off

Large-scale seagrass dieback in northern Spencer Gulf, South Australia 66 (2000) 297

Digital images

Evaluation of digital photography for estimating live and dead aboveground biomass in monospecific macrophyte stands 67 (2000) 69

Dioecious

RAPD profiling and isozyme analysis of New Zealand *Hydrilla verticillata* 66 (2000) 153

Distribution

Inter-annual variation in submerged macrophyte community biomass and distribution: the influence of temperature and lake morphometry 68 (2000) 321

Diversity

Re-evaluating species boundaries among members of the *Posidonia ostenfeldii* species complex (Posidoniaceae) – morphological and genetic variation 66 (2000) 41

Diversity of benthic microalgae in response to colonization time and eutrophication 67 (2000) 221

DNA

Genetic and geographic variation of the mangrove tree *Bruguiera* in Sri Lanka 67 (2000) 131

Dormancy

Dormancy and foliar density regulation in *Thalassia testudinum* 68 (2000) 281

Dormancy cycle

Effect of flooding on the annual dormancy cycle and on germination of seeds of the summer annual *Schoenoplectus purshianus* (Cyperaceae) 67 (2000) 109

Duckweed

A test of two methods for plant protein determination using duckweed 67 (2000) 61

Ecological amplitude

Investigation on the fundamental niche of a rare species: an experiment on establishment of *Luronium natans* 66 (2000) 209

Ecosystem

Biomass dynamics of seagrasses and the role of mangrove and seagrass vegetation as different nutrient sources for an intertidal ecosystem 66 (2000) 225

Eelgrass

Photosynthesis, respiration, and nitrogen uptake by different compartments of a *Zostera marina* community 66 (2000) 281

Effectivity

Influence of stomatal conductance on the efficiency of internal pressurisation in *Typha domingensis* 67 (2000) 1

Eleocharis

Evaluation of digital photography for estimating live and dead aboveground biomass in monospecific macrophyte stands 67 (2000) 69

Emergent macrophyte

Flow characteristics and internal pressure profiles in leaves of the *Typha domingensis* 67 (2000) 263

Energy charge

Sulfide effects on *Thalassia testudinum* carbon balance and adenylate energy charge 67 (2000) 275

Enriched and unenriched

Effects of habitat nutrients and seed sources on growth and expansion of *Typha domingensis* 68 (2000) 297

Environmental gradients

Leaf phenological traits in the mangrove *Kandelia candel* (L.) Druce 68 (2000) 1

Enzyme electrophoresis

Genetic diversity of *Potamogeton anguillanus* in Lake Biwa, Japan 67 (2000) 43

Epiphytes

The effects of epiphytic algae and their grazers on the intertidal seagrass *Zostera japonica* 67 (2000) 251

Epiphyton

The influence of periphyton on boundary layer conditions: a pH microelectrode investigation 67 (2000) 191

Eutrophication
Diversity of benthic microalgae in response to colonization time and eutrophication 67 (2000) 221
Everglades
Effects of 4 years of nitrogen and phosphorus additions on Everglades plant communities 68 (2000) 61
Evolution
Phylogenetic studies in *Callitriche*: implications for interpretation of ecological, karyological and pollination system evolution 68 (2000) 123
Export
Primary production and macro-detritus dynamics in a European salt marsh: carbon and nitrogen budgets 67 (2000) 23
Extracellular mucilage
Wound response and regeneration in *Coelarthrum opuntia* 68 (2000) 345
Floating root mats
Differential permeability of papyrus and *Miscanthidium* root mats in Nakivubo swamp, Uganda 67 (2000) 169
Floodgates
Influence of tidal restriction floodgates on decomposition of mangrove litter 68 (2000) 273
Flooding
Diaphragmatic nets prevent water invasion of gas canals in *Nelumbo nucifera* 67 (2000) 53
Effect of flooding on the annual dormancy cycle and on germination of seeds of the summer annual *Schoenoplectus purshianus* (Cyperaceae) 67 (2000) 109
Flooding stress
Structure and composition of oligohaline marsh plant communities exposed to salinity pulses 68 (2000) 143
Florida Bay
Sulfide effects on *Thalassia testudinum* carbon balance and adenylate energy charge 67 (2000) 275
Flow turbulence
Lacunal anatomy and resistance to convective flow in *Typha domingensis* and *Phragmites australis* 68 (2000) 165
Fluxes
Primary production and macro-detritus dynamics in a European salt marsh: carbon and nitrogen budgets 67 (2000) 23
Gas canals
Diaphragmatic nets prevent water invasion of gas canals in *Nelumbo nucifera* 67 (2000) 53
Genetic diversity
Genetic and geographic variation of the mangrove tree *Bruguiera* in Sri Lanka 67 (2000) 131
Genetic variation
RAPD profiling and isozyme analysis of New Zealand *Hydrilla verticillata* 66 (2000) 153
Germination
Time from flowering to seed viability in purple loosestrife (*Lythrum salicaria*) 66 (2000) 57
GIS
Large-scale seagrass dieback in northern Spencer Gulf, South Australia 66 (2000) 297
Glyceria fluitans
Increased groundwater levels cause iron toxicity in *Glyceria fluitans* (L.) 66 (2000) 321
Grazing
The effects of epiphytic algae and their grazers on the intertidal seagrass *Zostera japonica* 67 (2000) 251
Green algae
Genetic variation in the green alga *Caulerpa taxifolia* 66 (2000) 131
Groundwater
Increased groundwater levels cause iron toxicity in *Glyceria fluitans* (L.) 66 (2000) 321
Growth
Modeling the effects of macrophyte growth and decomposition on the nutrient budget in Shallow Lakes 68 (2000) 217
Growth, photosynthesis and nutrient content of seedlings and mature plants of *Cymodocea nodosa* — the importance of clonal integration 68 (2000) 265
Selected physiological responses of *Salvinia minima* to different chromium concentrations 68 (2000) 313
Growth curves
Contrasting responses in two populations of *Zostera noltii* Hornem. to experimental photoperiod manipulation at two salinities 67 (2000) 179
Growth pattern
Modelling architecture and growth patterns of *Posidonia oceanica* 66 (2000) 85
Gulf of California
Phenology and growth cycle of annual subtidal eelgrass in a subtropical locality 66 (2000) 329
Heavy metals
Cellular distribution of copper, lead and zinc in the grey mangrove, *Avicennia marina* (Forsk.) Vierh 68 (2000) 45
Herbicide
Herbicide toxicity of *Halophila ovalis* assessed by chlorophyll *a* fluorescence 66 (2000) 141
Heterozostera
Large-scale seagrass dieback in northern Spencer Gulf, South Australia 66 (2000) 297

Hybridization
Genetic diversity of *Potamogeton anguillanus* in Lake Biwa, Japan 67 (2000) 43
Hydrilla
Emergence of vegetative propagules of *Potamogeton nodosus*, *Potamogeton pectinatus*, *Vallisneria americana*, and *Hydrilla verticillata* based on accumulated degree-days 67 (2000) 237
Hydrogen Peroxide
Stigma peroxidase activity in association with thermogenesis in *Nelumbo nucifera* 67 (2000) 155
Hydrophily
Phylogenetic studies in *Callitriche*: implications for interpretation of ecological, karyological and pollination system evolution 68 (2000) 123
In vitro shoot induction
Plant regeneration from seedling explants of *Juncus effusus* 68 (2000) 239
Internal pressurisation
Lacunal anatomy and resistance to convective flow in *Typha domingensis* and *Phragmites australis* 68 (2000) 165
Intersection method
The line intersection method to estimate total foliage length in *Potamogeton pectinatus* L. 68 (2000) 79
Invasive weed
Time from flowering to seed viability in purple loosestrife (*Lythrum salicaria*) 66 (2000) 57
Iron toxicity
Increased groundwater levels cause iron toxicity in *Glyceria fluitans* (L.) 66 (2000) 321
Irradiance
Light acclimation of the charophyte *Lamprothamnium papulosum* 68 (2000) 205
Juncus effusus
Plant regeneration from seedling explants of *Juncus effusus* 68 (2000) 239
Kandelia candel
Leaf phenological traits in the mangrove *Kandelia candel* (L.) Druce 68 (2000) 1
Kjeldahl method
A test of two methods for plant protein determination using duckweed 67 (2000) 61
Lacunae
Flow characteristics and internal pressure profiles in leaves of the *Typha domingensis* 67 (2000) 263
Lake littoral zone
Breakdown and nutrient dynamics of submerged *Phragmites* shoots in the littoral zone of a temperate hardwater lake 66 (2000) 9
Lamprothamnium papulosum
Light acclimation of the charophyte *Lamprothamnium papulosum* 68 (2000) 205
Latitudinal variation
Contrasting responses in two populations of *Zostera noltii* Hornem. to experimental photoperiod manipulation at two salinities 67 (2000) 179
Lead
Cellular distribution of copper, lead and zinc in the grey mangrove, *Avicennia marina* (Forsk.) Vierh 68 (2000) 45
Leaf area index
Canopy leaf area index and litter fall in stands of the mangrove *Rhizophora apiculata* of different age in the Mekong Delta, Vietnam 66 (2000) 311
Leaf dynamics
Leaf primary production in *Posidonia oceanica*: two reconstructive aging techniques give similar results 68 (2000) 337
Leaf phenology
Leaf phenological traits in the mangrove *Kandelia candel* (L.) Druce 68 (2000) 1
Lemna gibba
A test of two methods for plant protein determination using duckweed 67 (2000) 61
Life cycle
Phenology and growth cycle of annual subtidal eelgrass in a subtropical locality 66 (2000) 329
Light
Physiological and growth responses of *Thalassia testudinum* to environmentally-relevant periods of low irradiance 67 (2000) 287
Inter-annual variation in submerged macrophyte community biomass and distribution: the influence of temperature and lake morphometry 68 (2000) 321
Light adaptation
Pigment composition of freshwater charophyceae 67 (2000) 117
Light requirement
Seed germination of two Everglades species, *Cladium jamaicense* and *Typha domingensis* 66 (2000) 169
Light-harvesting apparatus
Photosynthetic performance in *Syringodium filiforme*: seasonal variation in light-harvesting characteristics 68 (2000) 249
Ligurian sea
Leaf primary production in *Posidonia oceanica*: two reconstructive aging techniques give similar results 68 (2000) 337
Litter
Primary production and macro-detritus dynamics in a European salt marsh: carbon and nitrogen budgets 67 (2000) 23

Litter decomposition

Breakdown and nutrient dynamics of submerged *Phragmites* shoots in the littoral zone of a temperate hardwater lake 66 (2000) 9

Litter dynamics

Biomass dynamics of seagrasses and the role of mangrove and seagrass vegetation as different nutrient sources for an intertidal ecosystem 66 (2000) 225

Litterfall

Canopy leaf area index and litter fall in stands of the mangrove *Rhizophora apiculata* of different age in the Mekong Delta, Vietnam 66 (2000) 311

Littorelletea

Investigation on the fundamental niche of a rare species: an experiment on establishment of *Luronium natans* 66 (2000) 209

Low oxygen

Seed germination of two Everglades species, *Cladium jamaicense* and *Typha domingensis* 66 (2000) 169

Lythraceae

Time from flowering to seed viability in purple loosestrife (*Lythrum salicaria*) 66 (2000) 57

Macrophyte

Breakdown and nutrient dynamics of submerged *Phragmites* shoots in the littoral zone of a temperate hardwater lake 66 (2000) 9

Seed germination of two Everglades species, *Cladium jamaicense* and *Typha domingensis* 66 (2000) 169

Evaluation of digital photography for estimating live and dead aboveground biomass in monospecific macrophyte stands 67 (2000) 69

The influence of periphyton on boundary layer conditions: a pH microelectrode investigation 67 (2000) 191

Macrophyte production

Modelling growth of *Ruppia cirrhosa* 68 (2000) 29

Mangrove

Biomass dynamics of seagrasses and the role of mangrove and seagrass vegetation as different nutrient sources for an intertidal ecosystem 66 (2000) 225

Canopy leaf area index and litter fall in stands of the mangrove *Rhizophora apiculata* of different age in the Mekong Delta, Vietnam 66 (2000) 311

Physiological and biochemical responses to salt stress in the mangrove, *Bruguiera gymnorrhiza* 68 (2000) 15

Cellular distribution of copper, lead and zinc in the grey mangrove, *Avicennia marina* (Forsk.) Vierh 68 (2000) 45

Below-ground decomposition of organic matter in forests of the mangroves *Rhizophora stylosa* and *Avicennia marina* along the arid coast of Western Australia 68 (2000) 97

Genetic and geographic variation of the mangrove tree *Bruguiera* in Sri Lanka 67 (2000) 131

Marine algae

Genetic variation in the green alga *Caulerpa taxifolia* 66 (2000) 131

Marsh level

Primary production and macro-detritus dynamics in a European salt marsh: carbon and nitrogen budgets 67 (2000) 23

Mathematical modelling

Modelling architecture and growth patterns of *Posidonia oceanica* 66 (2000) 85

Meniscus

Diaphragmatic nets prevent water invasion of gas canals in *Nelumbo nucifera* 67 (2000) 53

Methane

Existence of micropores on the tiller surface of *Schoenoplectus subalatus*: the probable port for methane emission 66 (2000) 241

Microalgae

Photosynthesis, respiration, and nitrogen uptake by different compartments of a *Zostera marina* community 66 (2000) 281

Microgradient

The influence of periphyton on boundary layer conditions: a pH microelectrode investigation 67 (2000) 191

Micropores

Existence of micropores on the tiller surface of *Schoenoplectus subalatus*: the probable port for methane emission 66 (2000) 241

Miscanthidium violaceum

Differential permeability of papyrus and *Miscanthidium* root mats in Nakivubo swamp, Uganda 67 (2000) 169

Modelling

Modelling growth of *Ruppia cirrhosa* 68 (2000) 29

Molecular taxonomy

Genetic variation in the green alga *Caulerpa taxifolia* 66 (2000) 131

Monitoring

Long-term seagrass meadow monitoring near Perth, Western Australia 67 (2000) 319

Monoecious

RAPD profiling and isozyme analysis of New Zealand *Hydrilla verticillata* 66 (2000) 153

Morphological plasticity

Density-dependent morphological plasticity in *Salvinia auriculata* aublet 66 (2000) 273

Morphology
Comparative seed morphology of Mexican *Nymphaea* species 68 (2000) 189
Morphometric
Re-evaluating species boundaries among members of the *Posidonia ostenfeldii* species complex (Posidoniaceae) – morphological and genetic variation 66 (2000) 41
Morphometry
Inter-annual variation in submerged macrophyte community biomass and distribution: the influence of temperature and lake morphometry 68 (2000) 321
Multi-enzyme phenotype (MEP)
Genetic diversity of *Potamogeton anguillanus* in Lake Biwa, Japan 67 (2000) 43
Multivariate analysis
Alkalinity and trophic state regulate aquatic plant distribution in Danish lakes 67 (2000) 85
Nakivubo swamp
Differential permeability of papyrus and *Miscanthidium* root mats in Nakivubo swamp, Uganda 67 (2000) 169
Necrosis
Increased groundwater levels cause iron toxicity in *Glyceria fluitans* (L.) 66 (2000) 321
Nelumbonaceae
Stigma peroxidase activity in association with thermogenesis in *Nelumbo nucifera* 67 (2000) 155
Nitrogen
Autumn biomass, below-ground productivity, rhizome growth at bed edge and nitrogen content in seagrasses from Western Australia 67 (2000) 207
Physiological and growth responses of *Thalassia testudinum* to environmentally-relevant periods of low irradiance 67 (2000) 287
Nitrogen dynamics
Breakdown and nutrient dynamics of submerged *Phragmites* shoots in the littoral zone of a temperate hardwater lake 66 (2000) 9
Nitrogen fluxes
Photosynthesis, respiration, and nitrogen uptake by different compartments of a *Zostera marina* community 66 (2000) 281
Numerical simulation
Dynamic modeling of the growth of *Phragmites australis*: model description 67 (2000) 301
***Nuphar lutea* (L.) Sm.**
UV-reflectance in flowers of *Nymphaea alba* L. and *Nuphar lutea* (L.) Sm. (Nymphaeaceae) 67 (2000) 13
Nutrient budget
Modeling the effects of macrophyte growth and decomposition on the nutrient budget in Shallow Lakes 68 (2000) 217
Nutrient dynamics
Influence of tidal restriction floodgates on decomposition of mangrove litter 68 (2000) 273
Nutrients
Growth, photosynthesis and nutrient content of seedlings and mature plants of *Cymodocea nodosa* — the importance of clonal integration 68 (2000) 265
NW Mediterranean
Leaf primary production in *Posidonia oceanica*: two reconstructive aging techniques give similar results 68 (2000) 337
***Nymphaea alba* L.**
UV-reflectance in flowers of *Nymphaea alba* L. and *Nuphar lutea* (L.) Sm. (Nymphaeaceae) 67 (2000) 13
Nymphaeaceae
UV-reflectance in flowers of *Nymphaea alba* L. and *Nuphar lutea* (L.) Sm. (Nymphaeaceae) 67 (2000) 13
Comparative seed morphology of Mexican *Nymphaea* species 68 (2000) 189
Oxygen
The effect of changing environmental variables in the surrounding water on the physiology of *Elodea nuttallii* 66 (2000) 115
PAM fluorometry
Measuring rates of photosynthesis of two tropical seagrasses by pulse amplitude modulated (PAM) fluorometry 66 (2000) 69
Peat
Seed germination of two Everglades species, *Cladium jamaicense* and *Typha domingensis* 66 (2000) 169
Perforation plates
SEM studies of vessels in ferns. 14. Ceratopteris 66 (2000) 1
Periphyton
Vegetation dynamics and primary production in saline, lacustrine wetlands of a Rocky Mountain basin 66 (2000) 21
Diversity of benthic microalgae in response to colonization time and eutrophication 67 (2000) 221
Permeability
Differential permeability of papyrus and *Miscanthidium* root mats in Nakivubo swamp, Uganda 67 (2000) 169
pH
The effect of changing environmental variables in the surrounding water on the physiology of *Elodea nuttallii* 66 (2000) 115
The influence of periphyton on boundary layer conditions: a pH microelectrode investigation 67 (2000) 191

Phenetics
Comparative seed morphology of Mexican *Nymphaea* species 68 (2000) 189
Phenology
Canopy leaf area index and litter fall in stands of the mangrove *Rhizophora apiculata* of different age in the Mekong Delta, Vietnam 66 (2000) 311
Phenology and growth cycle of annual subtidal eelgrass in a subtropical locality 66 (2000) 329
Phenotypic plasticity
Contrasting responses in two populations of *Zostera noltii* Hornem. to experimental photoperiod manipulation at two salinities 67 (2000) 179
Phosphorus
Effects of 4 years of nitrogen and phosphorus additions on Everglades plant communities 68 (2000) 61
Phosphorus dynamics
Breakdown and nutrient dynamics of submerged *Phragmites* shoots in the littoral zone of a temperate hardwater lake 66 (2000) 9
Photosynthesis
Measuring rates of photosynthesis of two tropical seagrasses by pulse amplitude modulated (PAM) fluorometry 66 (2000) 69
The effect of changing environmental variables in the surrounding water on the physiology of *Elodea nuttallii* 66 (2000) 115
Photosynthesis, respiration, and nitrogen uptake by different compartments of a *Zostera marina* community 66 (2000) 281
Physiological and biochemical responses to salt stress in the mangrove, *Bruguiera gymnorrhiza* 68 (2000) 15
Effects of 4 years of nitrogen and phosphorus additions on Everglades plant communities 68 (2000) 61
Light acclimation of the charophyte *Lamprothamnium papulosum* 68 (2000) 205
Photosynthetic performance
Photosynthetic performance in *Syringodium filiforme*: seasonal variation in light-harvesting characteristics 68 (2000) 249
Phragmites
Breakdown and nutrient dynamics of submerged *Phragmites* shoots in the littoral zone of a temperate hardwater lake 66 (2000) 9
Genetic variation among and within populations of *Phragmites australis* in the Charles River watershed 66 (2000) 195
Phragmites australis
Dynamic modeling of the growth of *Phragmites australis*: model description 67 (2000) 301
Phylogeny
Phylogenetic studies in *Callitriche*: implications for interpretation of ecological, karyological and pollination system evolution 68 (2000) 123
Pigmentation
Light acclimation of the charophyte *Lamprothamnium papulosum* 68 (2000) 205
Pigments
Pigment composition of freshwater charophyceae 67 (2000) 117
Plant community response
Structure and composition of oligohaline marsh plant communities exposed to salinity pulses 68 (2000) 143
Plant growth
Structure and composition of oligohaline marsh plant communities exposed to salinity pulses 68 (2000) 143
Podostemaceae
Reproductive biology of *Polypleurum stylosum* (Podostemaceae) 67 (2000) 143
Pollination
Reproductive biology of *Polypleurum stylosum* (Podostemaceae) 67 (2000) 143
Polyamine levels
Polyamine levels in the seagrass *Cymodocea nodosa* 68 (2000) 179
Polypleurum
Reproductive biology of *Polypleurum stylosum* (Podostemaceae) 67 (2000) 143
Population genetics
Genetic variation in the green alga *Caulerpa taxifolia* 66 (2000) 131
Genetic variation among and within populations of *Phragmites australis* in the Charles River watershed 66 (2000) 195
Pore size
Influence of stomatal conductance on the efficiency of internal pressurisation in *Typha domingensis* 67 (2000) 1
Posidonia
Large-scale seagrass dieback in northern Spencer Gulf, South Australia 66 (2000) 297
Long-term seagrass meadow monitoring near Perth, Western Australia 67 (2000) 319
Posidonia australis
Recovery times for a damaged *Posidonia australis* bed in south eastern Australia 67 (2000) 161
Posidonia oceanica
Modelling architecture and growth patterns of *Posidonia oceanica* 66 (2000) 85
Leaf primary production in *Posidonia oceanica*: two reconstructive aging techniques give similar results 68 (2000) 337

***Posidonia ostenfeldii* complex**

Re-evaluating species boundaries among members of the *Posidonia ostenfeldii* species complex (Posidoniaceae) – morphological and genetic variation 66 (2000) 41

Potamogeton

Genetic diversity of *Potamogeton anguillanus* in Lake Biwa, Japan 67 (2000) 43

Potamogeton pectinatus

The line intersection method to estimate total foliage length in *Potamogeton pectinatus* L. 68 (2000) 79

Modeling the effects of macrophyte growth and decomposition on the nutrient budget in Shallow Lakes 68 (2000) 217

Primary production

Vegetation dynamics and primary production in saline, lacustrine wetlands of a Rocky Mountain basin 66 (2000) 21

Production

Biomass dynamics of seagrasses and the role of mangrove and seagrass vegetation as different nutrient sources for an intertidal ecosystem 66 (2000) 225

Production models

Vegetation dynamics and primary production in saline, lacustrine wetlands of a Rocky Mountain basin 66 (2000) 21

Proliferation

Wound response and regeneration in *Coelarthrum opuntia* 68 (2000) 345

Protein content

A test of two methods for plant protein determination using duckweed 67 (2000) 61

Pteridaceae

SEM studies of vessels in ferns. 14. Ceratopteris 66 (2000) 1

Putrescine

Polyamine levels in the seagrass *Cymodocea nodosa* 68 (2000) 179

RAPD

RAPD profiling and isozyme analysis of New Zealand *Hydrilla verticillata* 66 (2000) 153

Genetic and geographic variation of the mangrove tree *Bruguiera* in Sri Lanka 67 (2000) 131

RAPDs

Genetic variation among and within populations of *Phragmites australis* in the Charles River watershed 66 (2000) 195

Reciprocal transplanting

Effects of habitat nutrients and seed sources on growth and expansion of *Typha domingensis* 68 (2000) 297

Reconstructing methods

Leaf primary production in *Posidonia oceanica*: two reconstructive aging techniques give similar results 68 (2000) 337

Recovery times

Recovery times for a damaged *Posidonia australis* bed in south eastern Australia 67 (2000) 161

Redox potential

Existence of micropores on the tiller surface of *Schoenoplectus subalatus*: the probable port for methane emission 66 (2000) 241

Regeneration

Wound response and regeneration in *Coelarthrum opuntia* 68 (2000) 345

Rehabilitation

Influence of tidal restriction floodgates on decomposition of mangrove litter 68 (2000) 273

Reproductive Biology

Reproductive biology of *Polypleurum stylosum* (Podostemaceae) 67 (2000) 143

Resistance

Flow characteristics and internal pressure profiles in leaves of the *Typha domingensis* 67 (2000) 263

Respiration

The effect of changing environmental variables in the surrounding water on the physiology of *Elodea nuttallii* 66 (2000) 115

Photosynthesis, respiration, and nitrogen uptake by different compartments of a *Zostera marina* community 66 (2000) 281

Respiratory demand

Contrasting responses in two populations of *Zostera noltii* Hornem. to experimental photoperiod manipulation at two salinities 67 (2000) 179

Reynold's number

Lacunal anatomy and resistance to convective flow in *Typha domingensis* and *Phragmites australis* 68 (2000) 165

Rhizome

Diaphragmatic nets prevent water invasion of gas canals in *Nelumbo nucifera* 67 (2000) 53

Rhizome growth

Autumn biomass, below-ground productivity, rhizome growth at bed edge and nitrogen content in seagrasses from Western Australia 67 (2000) 207

Rhizophora

Below-ground decomposition of organic matter in forests of the mangroves *Rhizophora stylosa* and *Avicennia marina* along the arid coast of Western Australia 68 (2000) 97

Rocky Mountain wetlands
Vegetation dynamics and primary production in saline, lacustrine wetlands of a Rocky Mountain basin 66 (2000) 21
Root plaque
Increased groundwater levels cause iron toxicity in *Glyceria fluitans* (L.) 66 (2000) 321
Roots
Cellular distribution of copper, lead and zinc in the grey mangrove, *Avicennia marina* (Forsk.) Vierh 68 (2000) 45
Ruppia cirrhosa
Modelling growth of *Ruppia cirrhosa* 68 (2000) 29
Sago pondweed
Emergence of vegetative propagules of *Potamogeton nodosus*, *Potamogeton pectinatus*, *Vallisneria americana*, and *Hydrilla verticillata* based on accumulated degree-days 67 (2000) 237
Saline lakes
Vegetation dynamics and primary production in saline, lacustrine wetlands of a Rocky Mountain basin 66 (2000) 21
Saline wetlands
Vegetation dynamics and primary production in saline, lacustrine wetlands of a Rocky Mountain basin 66 (2000) 21
Salinity stress
Structure and composition of oligohaline marsh plant communities exposed to salinity pulses 68 (2000) 143
Salt
Physiological and biochemical responses to salt stress in the mangrove, *Bruguiera gymnorrhiza* 68 (2000) 15
Salt glands
Cellular distribution of copper, lead and zinc in the grey mangrove, *Avicennia marina* (Forsk.) Vierh 68 (2000) 45
Salvinia auriculata
Density-dependent morphological plasticity in *Salvinia auriculata* aublet 66 (2000) 273
Salvinia minima
Selected physiological responses of *Salvinia minima* to different chromium concentrations 68 (2000) 313
Sawgrass
Seed germination of two Everglades species, *Cladium jamaicense* and *Typha domingensis* 66 (2000) 169
Effects of 4 years of nitrogen and phosphorus additions on Everglades plant communities 68 (2000) 61
Schoenoplectus subalatus
Existence of micropores on the tiller surface of *Schoenoplectus subalatus*: the probable port for methane emission 66 (2000) 241
Seagass
Photosynthetic performance in *Syringodium filiforme*: seasonal variation in light-harvesting characteristics 68 (2000) 249
Seagrass
Re-evaluating species boundaries among members of the *Posidonia ostenfeldii* species complex (Posidoniaceae) – morphological and genetic variation 66 (2000) 41
Measuring rates of photosynthesis of two tropical seagrasses by pulse amplitude modulated (PAM) fluorometry 66 (2000) 69
Herbicide toxicity of *Halophila ovalis* assessed by chlorophyll *a* fluorescence 66 (2000) 141
Biomass dynamics of seagrasses and the role of mangrove and seagrass vegetation as different nutrient sources for an intertidal ecosystem 66 (2000) 225
Large-scale seagrass dieback in northern Spencer Gulf, South Australia 66 (2000) 297
Phenology and growth cycle of annual subtidal eelgrass in a subtropical locality 66 (2000) 329
Contrasting responses in two populations of *Zostera noltii* Hornem. to experimental photoperiod manipulation at two salinities 67 (2000) 179
Autumn biomass, below-ground productivity, rhizome growth at bed edge and nitrogen content in seagrasses from Western Australia 67 (2000) 207
Sulfide effects on *Thalassia testudinum* carbon balance and adenylate energy charge 67 (2000) 275
Physiological and growth responses of *Thalassia testudinum* to environmentally-relevant periods of low irradiance 67 (2000) 287
Long-term seagrass meadow monitoring near Perth, Western Australia 67 (2000) 319
Growth, photosynthesis and nutrient content of seedlings and mature plants of *Cymodocea nodosa* — the importance of clonal integration 68 (2000) 265
Dormancy and foliar density regulation in *Thalassia testudinum* 68 (2000) 281
Seasonal trends
Leaf phenological traits in the mangrove *Kandelia candel* (L.) Druce 68 (2000) 1
Seasonal variation
Dynamic modeling of the growth of *Phragmites australis*: model description 67 (2000) 301
Seasonality
Temporal and spatial variation of *Ulva* spp. and water properties in the Cabo Frio upwelling region of Brazil 66 (2000) 101

Sediment

Seed germination of two Everglades species, *Cladium jamaicense* and *Typha domingensis* 66 (2000) 169

Photosynthesis, respiration, and nitrogen uptake by different compartments of a *Zostera marina* community 66 (2000) 281

Sulfide effects on *Thalassia testudinum* carbon balance and adenylate energy charge 67 (2000) 275

Sediment characteristics

Investigation on the fundamental niche of a rare species: an experiment on establishment of *Luronium natans* 66 (2000) 209

Seed bank

Seedling emergence from seed banks of 15 New Zealand lakes with contrasting vegetation histories 66 (2000) 181

Seed dormancy

Effect of flooding on the annual dormancy cycle and on germination of seeds of the summer annual *Schoenoplectus purshianus* (Cyperaceae) 67 (2000) 109

Seed germination

Effect of flooding on the annual dormancy cycle and on germination of seeds of the summer annual *Schoenoplectus purshianus* (Cyperaceae) 67 (2000) 109

Seed maturation

Time from flowering to seed viability in purple loosestrife (*Lythrum salicaria*) 66 (2000) 57

Seed source

Effects of habitat nutrients and seed sources on growth and expansion of *Typha domingensis* 68 (2000) 297

Seed viability

Seed germination of two Everglades species, *Cladium jamaicense* and *Typha domingensis* 66 (2000) 169

Seedling emergence

Seedling emergence from seed banks of 15 New Zealand lakes with contrasting vegetation histories 66 (2000) 181

Seeds

Comparative seed morphology of Mexican *Nymphaea* species 68 (2000) 189

Slough

Effects of 4 years of nitrogen and phosphorus additions on Everglades plant communities 68 (2000) 61

Soft rush

Plant regeneration from seedling explants of *Juncus effusus* 68 (2000) 239

Spatial analyses

Temporal and spatial variation of *Ulva* spp. and water properties in the Cabo Frio upwelling region of Brazil 66 (2000) 101

Species composition

Alkalinity and trophic state regulate aquatic plant distribution in Danish lakes 67 (2000) 85

Species richness

Diversity of benthic microalgae in response to colonization time and eutrophication 67 (2000) 221

A comparison of two sampling techniques in the study of submersed macrophyte richness and abundance 68 (2000) 87

Structure and composition of oligohaline marsh plant communities exposed to salinity pulses 68 (2000) 143

Spectral reflectance

UV-reflectance in flowers of *Nymphaea alba* L. and *Nuphar lutea* (L.) Sm. (Nymphaeaceae) 67 (2000) 13

Spermidine

Polyamine levels in the seagrass *Cymodocea nodosa* 68 (2000) 179

Spermine

Polyamine levels in the seagrass *Cymodocea nodosa* 68 (2000) 179

Sporocarps

Density-dependent morphological plasticity in *Salvinia auriculata* aublet 66 (2000) 273

Spreading rate

Recovery times for a damaged *Posidonia australis* bed in south eastern Australia 67 (2000) 161

Sprouting

Emergence of vegetative propagules of *Potamogeton nodosus*, *Potamogeton pectinatus*, *Vallisneria americana*, and *Hydrilla verticillata* based on accumulated degree-days 67 (2000) 237

Sri Lanka

Genetic and geographic variation of the mangrove tree *Bruguiera* in Sri Lanka 67 (2000) 131

Stomatal conductance

Influence of stomatal conductance on the efficiency of internal pressurisation in *Typha domingensis* 67 (2000) 1

Stream plant communities

Plant communities in lowland Danish streams: species composition and environmental factors 66 (2000) 255

Stream size

Plant communities in lowland Danish streams: species composition and environmental factors 66 (2000) 255

Stress

Herbicide toxicity of *Halophila ovalis* assessed by chlorophyll *a* fluorescence 66 (2000) 141

Sulfide effects on *Thalassia testudinum* carbon balance and adenylate energy charge 67 (2000) 275

Submerged macrophytes

Modeling the effects of macrophyte growth and decomposition on the nutrient budget in Shallow Lakes 68 (2000) 217

Inter-annual variation in submerged macrophyte community biomass and distribution: the influence of temperature and lake morphometry 68 (2000) 321

Submerged plant

The effect of changing environmental variables in the surrounding water on the physiology of *Elodea nuttallii* 66 (2000) 115

Submersed macrophytes

Vegetation dynamics and primary production in saline, lacustrine wetlands of a Rocky Mountain basin 66 (2000) 21

Sulfide

Sulfide effects on *Thalassia testudinum* carbon balance and adenylate energy charge 67 (2000) 275

Superoxide dismutase

Physiological and biochemical responses to salt stress in the mangrove, *Bruguiera gymnorrhiza* 68 (2000) 15

Survival

Contrasting responses in two populations of *Zostera noltii* Hornem. to experimental photoperiod manipulation at two salinities 67 (2000) 179

Syringodium filiforme

Photosynthetic performance in *Syringodium filiforme*: seasonal variation in light-harvesting characteristics 68 (2000) 249

Systematics

Comparative seed morphology of Mexican *Nymphaea* species 68 (2000) 189

Taxonomy

Re-evaluating species boundaries among members of the *Posidonia ostenfeldii* species complex (Posidoniaceae) – morphological and genetic variation 66 (2000) 41

Temperature

Emergence of vegetative propagules of *Potamogeton nodosus*, *Potamogeton pectinatus*, *Vallisneria americana*, and *Hydrilla verticillata* based on accumulated degree-days 67 (2000) 237

Inter-annual variation in submerged macrophyte community biomass and distribution: the influence of temperature and lake morphometry 68 (2000) 321

Temperature requirement

Seed germination of two Everglades species, *Cladium jamaicense* and *Typha domingensis* 66 (2000) 169

Thalassia

Physiological and growth responses of *Thalassia testudinum* to environmentally-relevant periods of low irradiance 67 (2000) 287

Thermoregulation

Stigma peroxidase activity in association with thermogenesis in *Nelumbo nucifera* 67 (2000) 155

Tidal wetland

A comparison of two sampling techniques in the study of submersed macrophyte richness and abundance 68 (2000) 87

Tissue nutrient concentration

Effects of habitat nutrients and seed sources on growth and expansion of *Typha domingensis* 68 (2000) 297

Total plant length

The line intersection method to estimate total foliage length in *Potamogeton pectinatus* L. 68 (2000) 79

Tracheids

SEM studies of vessels in ferns. 14. Ceratopteris 66 (2000) 1

Transect

Long-term seagrass meadow monitoring near Perth, Western Australia 67 (2000) 319

Transpiration

Physiological and biochemical responses to salt stress in the mangrove, *Bruguiera gymnorrhiza* 68 (2000) 15

Trophy

Alkalinity and trophic state regulate aquatic plant distribution in Danish lakes 67 (2000) 85

Tuber

Emergence of vegetative propagules of *Potamogeton nodosus*, *Potamogeton pectinatus*, *Vallisneria americana*, and *Hydrilla verticillata* based on accumulated degree-days 67 (2000) 237

Turion

Emergence of vegetative propagules of *Potamogeton nodosus*, *Potamogeton pectinatus*, *Vallisneria americana*, and *Hydrilla verticillata* based on accumulated degree-days 67 (2000) 237

Typha

Evaluation of digital photography for estimating live and dead aboveground biomass in monospecific macrophyte stands 67 (2000) 69

Utricularia

Effects of 4 years of nitrogen and phosphorus additions on Everglades plant communities 68 (2000) 61

UV-patterns

UV-reflectance in flowers of *Nymphaea alba* L. and *Nuphar lutea* (L.) Sm. (Nymphaeaceae) 67 (2000) 13

Vegetation analysis

Evaluation of digital photography for estimating live and dead aboveground biomass in monospecific macrophyte stands 67 (2000) 69

Vegetation dynamics

Vegetation dynamics and primary production in saline, lacustrine wetlands of a Rocky Mountain basin 66 (2000) 21

Vegetation re-establishment

Seedling emergence from seed banks of 15 New Zealand lakes with contrasting vegetation histories 66 (2000) 181

Vessel elements

SEM studies of vessels in ferns. 14. Ceratopteris 66 (2000) 1

Wastewater treatment

Differential permeability of papyrus and *Miscanthidium* root mats in Nakivubo swamp, Uganda 67 (2000) 169

Water celery

Emergence of vegetative propagules of *Potamogeton nodosus*, *Potamogeton pectinatus*, *Vallisneria americana*, and *Hydrilla verticillata* based on accumulated degree-days 67 (2000) 237

Weed biology

Time from flowering to seed viability in purple loosestrife (*Lythrum salicaria*) 66 (2000) 57

Weed cutting

Plant communities in lowland Danish streams: species composition and environmental factors 66 (2000) 255

Western Australia

Below-ground decomposition of organic matter in forests of the mangroves *Rhizophora stylosa* and *Avicennia marina* along the arid coast of Western Australia 68 (2000) 97

Wetland states

Vegetation dynamics and primary production in saline, lacustrine wetlands of a Rocky Mountain basin 66 (2000) 21

Wetlands

Time from flowering to seed viability in purple loosestrife (*Lythrum salicaria*) 66 (2000) 57

Genetic variation among and within populations of *Phragmites australis* in the Charles River watershed 66 (2000) 195

Structure and composition of oligohaline marsh plant communities exposed to salinity pulses 68 (2000) 143

Plant regeneration from seedling explants of *Juncus effusus* 68 (2000) 239

Influence of tidal restriction floodgates on decomposition of mangrove litter 68 (2000) 273

Winter bud

Emergence of vegetative propagules of *Potamogeton nodosus*, *Potamogeton pectinatus*, *Vallisneria americana*, and *Hydrilla verticillata* based on accumulated degree-days 67 (2000) 237

Wound-site

Wound response and regeneration in *Coelarthrum opuntia* 68 (2000) 345

X-ray microanalysis

Cellular distribution of copper, lead and zinc in the grey mangrove, *Avicennia marina* (Forsk.) Vierh 68 (2000) 45

Xylem

SEM studies of vessels in ferns. 14. Ceratopteris 66 (2000) 1

Zinc

Cellular distribution of copper, lead and zinc in the grey mangrove, *Avicennia marina* (Forsk.) Vierh 68 (2000) 45

Zostera

Large-scale seagrass dieback in northern Spencer Gulf, South Australia 66 (2000) 297

Zostera japonica

The effects of epiphytic algae and their grazers on the intertidal seagrass *Zostera japonica* 67 (2000) 251

Zostera marina

Photosynthesis, respiration, and nitrogen uptake by different compartments of a *Zostera marina* community 66 (2000) 281

Phenology and growth cycle of annual subtidal eelgrass in a subtropical locality 66 (2000) 329
